

1926

A momentous year, for on the
14th. April the Hall was opened officially.
It was insured for £800, lit by hanging
petrol lamps, heated by 2 'Perfection'
oil heaters (purchased for 27/- each) and
the seating — forms! Cleaning was done
on a rota basis. Fencing the Hall became
a topic for discussion and the decision was
made to ".....put poles across the entrance
to keep cattle out". Where to empty the
lavatory buckets also presented certain
problems!
